One day you will look back and see that all along you were blooming.

your eyes, flowers of ice and snow

The Electronic Gate.
It is not tragic
if you lost someone
but found yourself.

Today

THINK YOU ARE THE SWEETEST THING

don't you remember?

ME SEE GENIUS

Lives in a dream world

There is one emotion that its presence or absence changes us completely

Love

green with envy

love is so short
forgetting is so long

dream a little
dream of me

HOUSE FOR MR. & MRS. GEORGE JACOBSEN SHEET NO 2
FRANK LLOYD WRIGHT ARCHITECT

Palette designed based on patients benefiting from a calming environment in an often stressful healthcare context

Holographic foil: A gradual, seamless interspersal of purple and blue

Pastels for a low-stimulation, muted interface since users are most likely to use the app in the morning

Any colours are incorporated only to 'tinge' intentionally neutral shades like beige and cream to avoid overwhelming the users who are likely to be older (chronic pain patients) and potentially uncomfortable with technology

(inspired by a more familiar interface for them: Newspapers!)

Using an understated shade of blue for comfort with mild purples to break up monotony
